

# Phenylbute® Powder

*Phenylbute is a synthetic, non-hormonal, anti-inflammatory, antipyretic compound for the relief of equine inflammatory conditions associated with the musculoskeletal system.*

## Benefits:

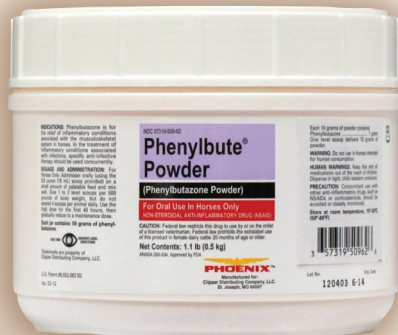

- FDA approved.
- Easy open container with moisture-proof liner and a single-dose scoop.
- Palatable sweet citrus flavor and smell.

## Formulation & Packaging:

- 10 grams of powder = 1 gram phenylbutazone
- 2.2 pound & 1.1 pound container - one level scoop delivers 10 grams of powder.

## Dosage:

- Administer orally; using provided scoop sprinkle on a small amount of palatable feed and mix well. Give 1-2 level scoops per 500 lbs. body weight, but not to exceed 4 gm per day.
- See packaging for complete instructions.
